

We hereby undertake:

To invest in sophisticated means of production and software, to ensure the sustainability and development of our products at premium quality with our experienced employees, and to offer, in a timely and perfect manner, top-notch products that visually and functionally impress the end-users ahead of our competitors;

To continually measure customer satisfaction and to take any remedial actions if necessary;

To continuously improve product range according to demands;

To provide our employees with all kinds of training and support for the development of their personal skills and capabilities based upon our codes of conduct and to adopt effective communication, participatory approach, constructive feedback and teamwork mindset;

Based upon the awareness of environment and future and in line with our objectives specified for our activities;

To respect environmental legislations, administrative regulations and industrial obligations, and to make efforts to recycle, recover, dispose of and decrease our wastes in order to ensure conservation of environment and to prevent environmental pollution for the purposes of lifecycle and sustainable development and continued delivery of positive value to environment while producing environmental friendly products to reduce the consumption of natural resources;

To comply with national and international occupational health and safety legislations and customer requirements, and to enable a safe working environment with the participation of employees and employee agents, to eliminate any risks and hazards that may impair the health of our employees and all relevant parties based upon the belief that all kinds of occupational accidents and diseases are preventable, and to foresee the risks with a systematic and preventive approach in order to take any necessary actions, and to plan and maintain quantifiable and traceable targets to ensure continual development and to achieve such goals;

And to be a company that is focused on quality, environment and occupational safety and is committed to continually developing system performance with active participation of our employees and suppliers.

This quality policy applies to ISO 9001: 2015 Quality Management System, ISO 14001: 2015 Environmental Management System and ISO 45001: 2018 Occupational Health and Safety Management Systems.
